ROC Commercial Security & Engagement

Enhance security and deliver more engaging experiences with Rank One's top-rated computer vision solutions.

Rank One's face recognition and object detection / recognition technology powers a wide range of identity authentication and real-time notification applications that enhance security and enable delivery of more engaging experiences that inspire confidence and build lasting relationships.

Available as an SDK, component parts, and real-time recognition platform, ROC technologies enable system integrators and in-house developers to build highly secure, friction-free, identity authentication solutions that delight spectators and guests, inspire confidence, and create brand affinity.

- → Validate identities against government issued credentials at the time of enrollment
- → Prevent the creation of fraudulent identities or sharing of privileges through highly accurate face recognition capture
- → Deliver frictionless access to physical spaces and member benefits
- → Authenticate identities and enable access

Markets

Sports

- Deliver couch-to-seat convenience and customized fan experiences
- Monitor for persons of concern
- Investigate incidents more rapidly
- Validate access rights to restricted spaces
- Create searchable inventories of persons and vehicles for post-event investigations

Gaming

- Authenticate identities for friction-free, secure game play
- Enhance responsible gaming compliance
- Combat fraud and prevent crime
- Enable e-Wallet convenience
- Create searchable inventories of persons and vehicles for post-event investigations
- Validate claimed identities at loyalty program enrollment, online and on-premises

Entertainment

- Maintain awareness and manage security concerns across single or muti-unit venues
- Deliver couch-to-seat convenience and customized fan experiences
- Recognize fraudulent ticket sellers and persons of concern
- Validate credentials at temporary, day-of-event checkpoints
- Document and manage security incidents

Use Cases

Build Lasting Relationships

Recognize opt-in reward program members for delivery of highly personalized experiences and capture daily shopper demographics for informed marketing that drives sales.

Recognize Returning Guests and VIPs

Recognize important guests and loyal customers immediately to deliver personalized experience and boost brand affinity.

Security Operations

Speed investigations through searchable inventories of persons and vehicles; recognize persons of concern quickly to facilitate response; identify patterns and trends across multi-unit enterprises.

Prevent Fraud

Detect fraud in Loyalty Programs and eWallet platforms through robust identity proofing, secure access authorization, and de-duplication.

Vendor and Staff Compliance

Eliminate timecard fraud and buddy punching; monitor and document access to sensitive areas or hazardous locations, speed visitor and vendor registration and daily check-ins.

Rank One Computing

Founded in 2015, ROC is an **employee-owned company** with headquarters in **Denver, CO** and offices in **Morgantown, WV** and the home offices of some of America's finest engineers and Computer Vision experts.

We look forward to working with you - as a customer, partner, or colleague - to solve problems, increase engagement, and protect our way of life through ethical and responsible Computer Vision technology.

Who we are:

Recognized **thought leaders** and **innovators**, with **decades of experience** and numerous patents in **biometrics**, **computer vision**, and **identity solutions**.

Why choose us:

Proven experience developing and deploying **tailored solutions** that **increase trust** in online commerce with **global financial** institutions, strengthen **U.S. military and law enforcement** missions, and enhance **customer loyalty** with **leading retail and entertainment** enterprises.

- DoD and FBI Biometric identification platforms
- Fortune 500 and global banking e-commerce
- State and local public safety and law enforcement missions
- Trusted traveler and spectator programs
- Retail and Entertainment customer engagement and loss prevention

How we're different:

-→ **Engineering-first** approach focuses on efficient, effective, and **game-changing** solutions that **solve customer challenges**.

-→ Dedicated to **ethical use of emerging technology** to make spaces - digital or physical - **safer and more engaging**.
